## About Me

---

I'm Madhavan .I'm super interested in scoring an internship for online sessions. I'm a dedicated person who always gives my best shot. To secure a summer internship at your online session where I can gain hands on experience and further develop my skills through your session

## Project

---

### Canteen management system using Python

Developed a canteen management system by ordering food through online . A canteen management system is a software solution designed to streamline the operations of a cafeteria or canteen, typically found in schools, universities, offices, or other institutions. It helps in managing inventory, tracking sales, processing payments, and generating reports. Users can place orders, view menus, and sometimes even customize their meals through the system.

### Photography and event management application using figma

A photography and events management application is a comprehensive tool designed to assist photographers and event planners in organizing, coordinating, and managing various aspects of events, from small gatherings to large-scale functions.
